

María Alejandra Tavera

Senior Design Engineer

Frontend Engineering • Product Design • Design Systems

Medellín, Colombia | mt.developerdesigner@gmail.com | mtbusiness.dev | linkedin.com/in/maria-tavera

Professional Summary

Senior Design Engineer with 13+ years of experience bridging product design and frontend engineering. Delivered 100+ websites and 20+ web/mobile applications for enterprise organizations, global brands, agencies and SaaS companies. Specialized in Design Systems, React ecosystems, frontend architecture, UX strategy, accessibility, performance optimization and AI-assisted development.

Career Highlights

- 13+ years of experience
- 100+ websites delivered
- 20+ applications
- Leadership, mentoring and technical decisions
- Design Systems from scratch
- Design-to-code workflows
- Enterprise, SaaS, e-commerce and marketing platforms

Core Expertise

Product: UX Strategy, Research, IA, Interaction Design, Product Thinking

Frontend: React, Next.js, Angular, React Native, TypeScript, JavaScript

Engineering: Storybook, Component Libraries, Design Tokens, WCAG, Core Web Vitals, CI/CD

Platforms: WordPress, Shopify, Headless CMS, Supabase, Vercel

AI: ChatGPT, Claude, Cursor, GitHub Copilot, Lovable, Bolt, Windsurf, v0, Replit, Antigravity

Professional Experience

Senior Design Engineer — Devbloom (Sep 2025–Present)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

Design Engineer / UI Lead — Tiendapp (Oct 2022–Sep 2025)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and

continuous product improvement.

Frontend Engineer & UI Designer — Julius Connected 2 Grow / Alpina (Mar 2020–Feb 2022)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

Frontend Developer — Sproutloud (Apr 2019–Oct 2019)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

Web Experience Specialist — Samsung (Sep 2018–Apr 2019)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

Frontend Engineer & UI Designer — ITA LATAM (Feb 2015–Sep 2018)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

UI Developer — Miguelo Romano & Linkapedia (Sep 2013–Sep 2014)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

Junior Frontend Developer — Yuxi Global (Dec 2012–Apr 2013)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.

Graphic & Digital Designer — GEA Colombia & Cordesarrollo (2013–2014)

Designed and delivered user-centered digital products, scalable interfaces and reusable design systems while collaborating with cross-functional teams. Contributed across discovery, UX, UI, frontend implementation, performance optimization and continuous product improvement.
